Description of Activities

We have approval for exploration/development of a mine on Blitz # 7 Section 30 T-32 So. & R-12 East dated 2/12/81, (3809 U-504). On the balance of these claims we plan to do some exploratory drilling. We plan to use our Le Roi Hydraulic Drill Rig and Compressor. The access routes that will be used are the existing Garfield County roads which are maintained by Garfield County and old mining roads to claims and on them. We also plan to use some already established claim roads which will be maintained by us during the time we use them. Surface area to be disturbed will be less than 5 acres.

Statement of Reclamation

When our study is completed, and where practical, we will reshape the ground that we have disturbed to the approximate contour of the surrounding ground.

Areas of Past Disturbance

Prior to January 1, 1981, there has been extensive mining and exploration of these claims since the early 1940's and before as described in the Utah Geological and Mineralogical Survey Report Specials Studies 22, September, 1967. There are many existing roads, portals, mine dumps, ore pads and areas of open pit mining. These areas have not been reclaimed to any extent.
